Testimonials

Below are comments from our clients who have used TA-65[®]. Some of these results are atypical. Individual results may vary.

“Last weekend I finished in 11th place overall out of 72 runners in a 100 mile ultramarathon. That’s the best placing I ever had. Surprisingly, I had no pains whatsoever after the race. I felt like I had done just a typical afternoon jog.

I am a Telomere Biologist, and I understand how important a telomerase activator could be in countering the aging process, but I don’t understand the mechanism of how lengthening telomeres would give me this sudden success in running. Maybe TA-65 does more than just lengthen telomeres.”

Bill Andrews, PhD 56

Reno, NV

“In only 3 months my cardio age went from 64 to 52.

My pulmonary age went from 52 to 39. My eye doctor says he’s never seen the accommodation reserve increase in someone my age it always goes down with time.

He wanted to change the prescription for my contact lenses but I told him to wait because it’s only going to get better.”

Bill Turon, 64

Berkeley Hts., NJ

“My telomeres got longer by 100 base pairs at 3 months and an additional 100 base pairs at 6 months. ”

Bob Waskom, 69

Pacific Northwest

“I was already a competitive athlete when I began the Patton Protocol. My regular 30-mile bike ride- with a 4000 foot climb- took me 2 hours and 20 minutes. After 3 months on TA-65 it went down to 2 hours. And, by the way, my skin is more supple. My skin elasticity, as measured by a Cutometer, improved.”

Shelby Blackburn, 45

Redwood City, CA
